

January 2024 Membership Characteristics:

Annually it is useful to understand some of the characteristics of our membership. As shown in the following charts, the age distribution of our membership spans quite a range from the low 60's to the mid 90's with an average age of 78.8 and median age of 79.6.

The current membership as of Jan 2024 is 147 with five new inductions to take place on January 17. Two years ago, our membership was 93. The recruiting effort for the last two years following the pandemic has been exceptional. The longevity chart shows that we have added well over half of our current membership in the last 4 years. In fact, the average longevity metric is 6 years, and the median is 3. Remarkable. Furthermore, the average age has dropped from 81.9 at the end of 2022 to the current average 78.8.

Further the average age of the 81 that joined in the last 4 years is 75.0, and for the last year it was 74.9. So, we are on a very good trend toward maintaining the vitality of our branch.
