Social Needs and Key Determinants of Health and Wellness in a Community

A Promotor is a community member who shares the same language and culture of the community they serve and understands the needs in their community.

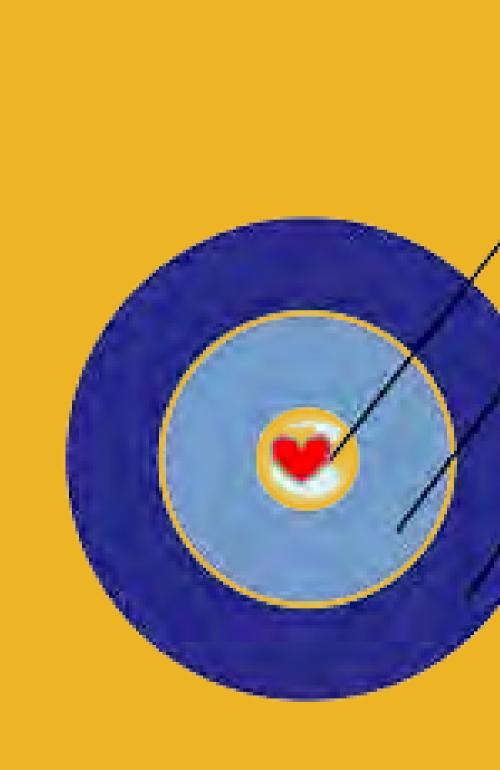

WHAT IS A PROMOTOR?

A PROMOTOR IS AN ESSENTIAL CATALYSTS FOR COMMUNITY CHANGE & SUPPORT

HOW DO WE KNOW THIS PROGRAM WORKS?

INDIVIDUAL

COMMUNITY

PROMOTORES ORIGINS

China

In the 1960s, Chinese farm workers were trained as "barefoot doctors" to provide health care in rural communities

Latin

America

Heightened political activism across Latin America in the 1960s and 1970s resulted in an increased number of Promotores trained by popular organizations and church groups.

United States

S In the U.S., the first formal community health worker programs were established in the 1950s to deliver accessible and appropriate health resources to communities not being served by the traditional medical system.

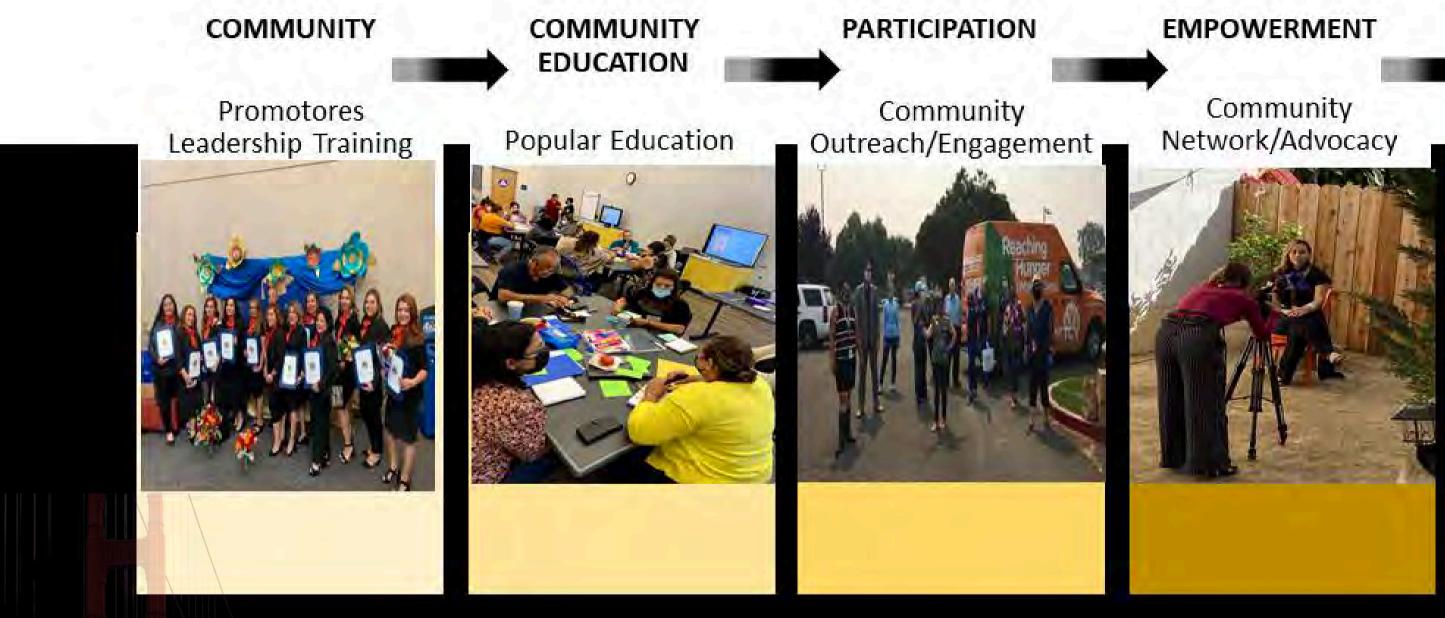

PROMOTORES IN THE CITY OF NEWARK

In the City of Newark, the Promotores Action is visible, having a favorable impact on access to resources and services in the Latino community.

OUR WAY TO TRANSFORMATION

What I do is the opposite of building walls. I build bridges. A bridge is something that connects instead of separating. By Santiago Calatrava

TRANSFORMATION

OUR CURRENT PROJECTS

- Bilingual Preschool Program

Building Community Partnerships

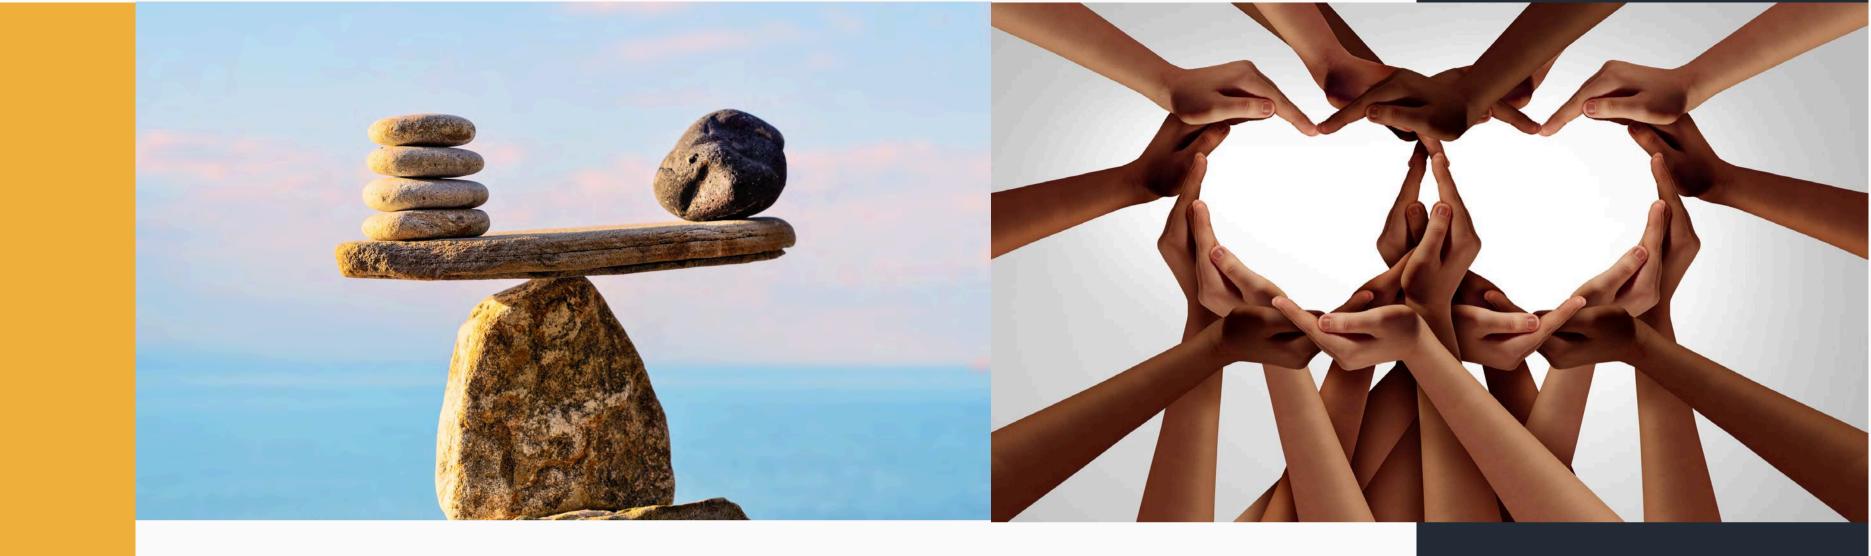

THE LAWRENCE OF SCIENCE UNIVERSITY OF CALIFORNIA, BERKELEY

"It is not just the Promotor who must fit the organization, but the organization must fit the cultural values of the community-based model too. Organizations who truly understand promotores use popular education methodology appropriate for the community transformational model. Core competencies are also linked to the model. System readiness means you already have in place values and principles to support the model, and you understand what the model needs to be successful." —San Diego County-

Thank You!
