"Monet: The Late Years Exhibit"
 at the de Young Museum
Friday - May 3, 2019

The exhibit features Claude Monet's paintings dating from 1913 to 1926, the final phase of the artist's long career. During his late years, the well-traveled Monet stayed close to home, inspired by the variety of elements making up his own garden at Giverny, a village located about 45 miles from Paris. With its evolving scenery of flower beds, footpaths, willows, and wisteria, the garden became a personal laboratory for the artist's concentrated study of natural phenomena.
